In order that we comply with Data Protection legislation, we need your permission before we publish your submitted video.

I understand that by sending photos and video to Oxfordshire County Council (“the Council”), I am agreeing for this content to be used to help promote the Council’s services.

I permit the Council to use the photographs or videos I have submitted for the *Imagine* Virtual Performance and allow for them to be reproduced and shared across the Council’s social media platforms.

I understand that this form is valid for two years from the date of signing, and the Council, will not use any photographs or videos after this time in any new publications. However, I acknowledge and understand that once the photographs or videos are in the public domain, there may still be paper or other materials containing the photographs or videos in circulation after this time. I also note that websites can be seen throughout the world and not just in the UK.

I understand that I am entitled to withdraw my consent at any time provided that I tell the Council in writing by sending an email to music.service@oxfordshire.gov.uk. In withdrawing consent to use my photograph or video images, I understand that the images will no longer be used in any new publications designed after a reasonable period of the Council receiving my notice of withdrawal. However, leaflets and the information already available on the internet may still remain in circulation after this time.

Regarding this specific project – once the finished video has been created and edited on an OCC computer, individual videos will be deleted. The main video may be stored on an OCC device for 2 years.

I have read and understood the Conditions of Use and consent to the use of my photographs or video images for the above purposes.

**When signing on behalf of child: I confirm that I am the legal guardian of the child and have the authority to sign on their behalf.*

*** I understand that by typing my name below, I give consent for my child’s video to be included in the EVENT NAME video which will be released through social media channels and stored on an OCC Computer for up to 2 years.**
